HOW TO CLEAN AND CARE FOR A HAIR ON HIDE RUG

Hair on hide is a durable, top-end, natural product that is easy to care for and will last for many years. Taking proper care of your hair on hide rug is necessary to prolong its beauty, luster and life.

Basic Care Instructions

1. Upon receiving your rug, remove from packaging and lay flat on a clean surface. This will help to release any creases it has sustained from shipping. The rug will flatten out after a few days on its own. Using heavy objects to hold down the corners and edges may be useful, but be careful not to use items that may cause indentations or harm to the rug.
2. To prolong the life of your rug, place in a low-traffic area out of direct sunlight. This will help preserve the color and prevent excess wear and tear.
3. Keep your hair on hide rug(s) in dry places (floor).
4. For storage, place rug hair side up and roll. If possible, cover with plastic to protect and store in a cool, dry space.

Cleaning Instructions

1. All hair on hide rugs are able to be vacuumed with most household vacuums. Vacuum as needed or shake outside to remove dirt and dust.
2. If needed, use a soft, clean bristle brush in the direction of the hair to remove any remaining debris.
3. If you need to spot clean, first wipe with a humid soft cloth in the direction of the hair. Then use a sponge dampened with water or neutral soap to wipe away any dirt.
4. For stain removal, immediately remove any excess liquids or solids with a paper towel, soft cloth or sponge. Dab and wipe in direction of the hair. Soak up as much liquid as possible to prevent any liquids from soaking into the hide.
5. Place the hide outdoor to dry, if necessary, in a clean and airy space in the shade (not directly in the sun).

Warning

- Do not place your hair on hide rug in the washing machine.
- Avoid steam cleaners and the washing machine.
- Keep in a dry place with low humidity. Excess moisture can ruin the tan.
- Soaking your cowhide rug is the worst thing you can do.
- Spot cleaning and dry clean only.
- Do not tumble dry.
- Never use bleach on your hair on hide rug.
